

EX NO. 6

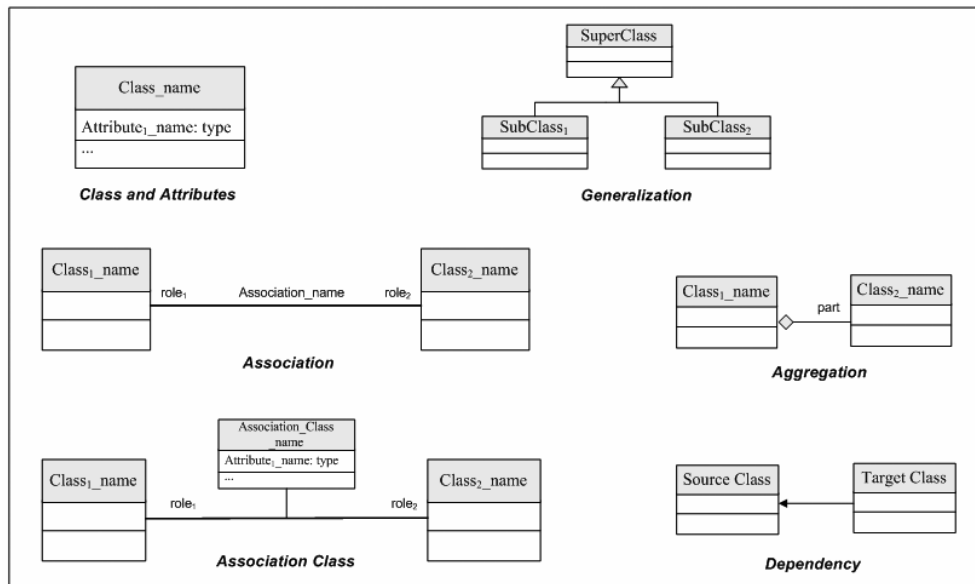

CLASS DIAGRAM

AIM :-

To draw a sample class diagram for your project or system.

THEORY

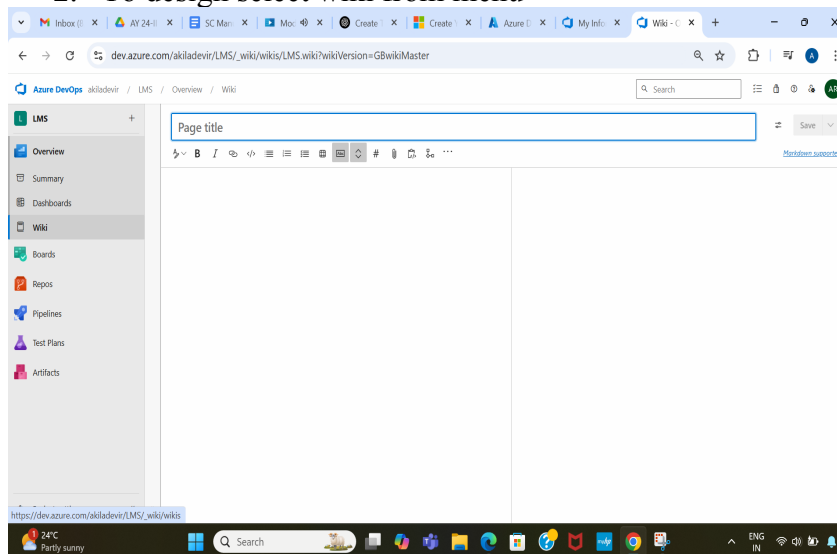

A UML class diagram is a visual tool that represents the structure of a system by showing its classes, attributes, methods, and the relationships between them.

Notations in class diagram

Procedure:

1. Open a project in Azure DevOps Organisations.
2. To design select wiki from menu

3. Write code for drawing class diagram and save the code

```

classDiagram
class Person {
+String name
+int age
+walk()
+talk()
}

class Employee {
+String company
+double salary
+work()
}

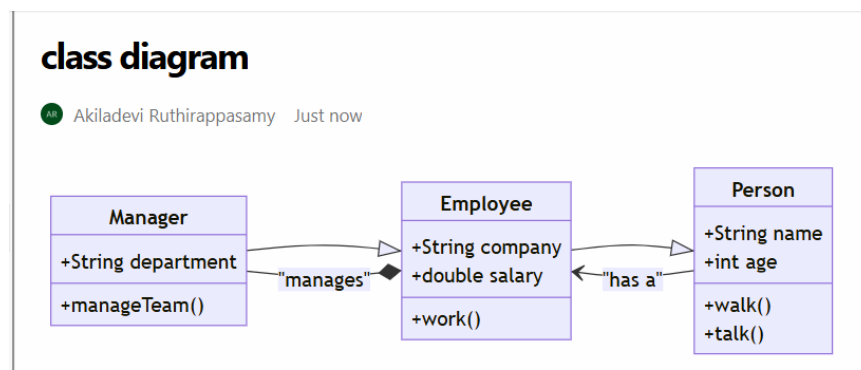

class Manager {
+String department
+manageTeam()
}

Person <|-- Employee // Inheritance
Employee <|-- Manager // Inheritance
Person --> Employee : "has a" // Association
Manager --* Employee : "manages" // Composition

```

Relationship Types

Type	Description
<	Inheritance
*	Composition
o	Aggregation
>	Association
<	Association
>	Realization

Visit : <https://mermaid.js.org/syntax/classDiagram.html>

Result:

The use case diagram was designed successfully.
